Weekly Report

RANCH MANAGER

Hi Everyone!

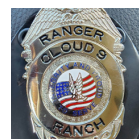

Week 20
May 16th 2024

Memorial Day Weekend is almost here! We received a 2" rain in 1-hour on Monday evening, which has really done a lot of damage to all the gravel roads. We are working on the campgrounds and compound road now, so please use caution around the equipment! Behind the Craft House at the intersection of Tomichi Pass and Dyn O Mite we have closed off the trail portion that starts/end at the Craft House. The water shed from these two trails were flooding the Craft House. Both trails now start/end on the lower portion of Camo. Please do not cut through this area and stay on the new trail! The Conex's were set this week, but with the wet ground the blocks we used have broken, we have a new style of block that we will be releveling with next week and will start calling members on the Conex list. If you are wanting to be on the call list, please email me at gm@cloud9ranch.com. More new campground entrance signs have been installed this week, and maintenance is working on the replacement sign for the Gate House today. This sign will be located on the Front Drive just before the Gate House. The Conservation Committee has purchased a 12x20ft Gazebo that has been placed on the ridge in front of the Conservation Building. The Ranch has also purchased a Gazebo that will be placed in the Fogey Playground.

Thanks Mike,

Michael Edmonds

**IMPORTANT
ANNOUNCEMENT**

“We are happy to announce that we now offer propane dispensing 24/7 again, we had a great class for our employees to get recertified and had some new certifications to help meet the needs of our members. Unfortunately, we were also informed by the State of Missouri inspector who was at the class that we must start inspecting the tanks we fill better, we were found to be not in compliance with this. We were informed that if an employee fills an out-of-date tank, they can be fined \$5000 personally as well as other fines for the Ranch. We have ordered stickers that we are required to put on each tank our employees fill. Employees will be checking for damaged tanks as well as tanks out of date. You can check your own tank to see if it is in date before bringing it up. On the collar of the tank there will be a date, if it has a date and not letter it is good for 12 years from the date on the tank. If it has a date and the letter E behind it, the tank is good for 5 years from the date. If the date has the letter S after it the tank is good for 10 years from the date on the tank. Examples : 10/20 good till October of 2032 10/20 E good till October 2025, and 10/20 S good till October 2030. A Ranger will check and let you know what the date on your tank is at the time of filling. Currently we do not have any tanks to replace damaged or out of date tanks. We will be working on getting a list together where tanks can be purchased locally.”
