**Hi Everyone!**

**Week 25**  
**June 20TH, 2024**

Today is the first official day of Summer! We have been blessed with great temperatures this spring, but now summer has begun, hopefully the temps will remain good. We have been busy preparing your Ranch for the 4th of July weekend. This week the new ATM machine was installed, set up and is working in the Trading Post. The old 3 piece of undersized culvert at the entrance to the T-Top and Chapel was dug up and replaced with a new 2-piece 24inch culvert. We are hoping to pour concrete wing walls before the 4th of July. Enviromental Works has almost completed the Wastewater Treatment Plant filter and will be back this next week to finish the job due to the pea gravel not arriving quick enough. In Fogey we have set a new concrete block wall for holding in a road for the pump truck to access the septic tanks. Pad 76,77,78 and 79 will be open by next Friday the 28th or as soon as we can back fill and clean up. If you have a camper on a pad, it must be occupied Thursday July 4th, Friday July 5th and Saturday July 6th. All guests must be off the campsites Saturday June 29th NO exceptions!

Thanks, Mike

## **IMPORTANT ANNOUNCEMENT**

“We are happy to announce that we now offer propane dispensing 24/7 again, we had a great class for our employees to get recertified and had some new certifications to help meet the needs of our members. Unfortunately, we were also informed by the State of Missouri inspector who was at the class that we must start inspecting the tanks we fill better, we were found to be not in compliance with this. We were informed that if an employee fills an out-of-date tank, they can be fined \$5000 personally as well as other fines for the Ranch. We have ordered stickers that we are required to put on each tank our employees fill. Employees will be checking for damaged tanks as well as tanks out of date. You can check your own tank to see if it is in date before bringing it up. On the collar of the tank there will be a date, if it has a date and not letter it is good for 12 years from the date on the tank. If it has a date and the letter E behind it, the tank is good for 5 years from the date. If the date has the letter S after it the tank is good for 10 years from the date on the tank. Examples : 10/20 good till October of 2032 10/20 E good till October 2025, and 10/20 S good till October 2030. A Ranger will check and let you know what the date on your tank is at the time of filling. Currently we do not have any tanks to replace damaged or out of date tanks. We will be working on getting a list together where tanks can be purchased locally.”
