## THOUGHTS?

What a great 1st quarter! In-season is just about here, and we are all excited to have everyone back to see all the improvements made and enjoy the events we have scheduled. We have some great ideas for events that are in the works, we aren't sure if they will happen this year but keep your eyes open for those new/improved events!

As you can see, this is new. I wanted to give an end of quarter version of the 9 lines to recap on what happened but also take it back to look similar to the old round-up. Feel free to reach out and let me know what you think.

If you have ideas on what I should and could add to make it better, shoot me an email.

If you have photos or stories you would like to share, send me an email you shoot me a message on the Cloud 9 messenger!

# MARCH NEWS

---

## WINTER / SPRING

Weather wise March has been a roller coaster. Beautiful sunny and 70-degree weather one day, heavy rain and strong winds the next. For several weeks our Fire Dept. has been called out for mutual aid fires due to the strong winds making it difficult to put the fires out. Please watch the weather to keep an eye out on the wind speeds and do NOT burn if there is a fire ban. March 14th, we had a deadly storm come through the area. With it, it brought heavy wind and rain. Thankfully the Ranch was not affected, but that is not the same for our surrounding towns. Bakersfield and South Fork were both hit with a deadly EF-3 tornado putting several families out of their homes and the loss of 3 lives. Please pray for the families who lost a loved one and for those who lost their homes. It has been asked of the families who lost their homes to please not gawk as they are trying to salvage and begin rebuilding their homes and lives.
