PROPOSAL

Special Assessment — Family & Children's Pool Replacement

Dear Fellow Members,

We are writing to you today about one of the most important decisions our community has faced in a generation. The vote before you is not just about a swimming pool — it is about the safety of our children, the vitality of our community, and our responsibility to act before a crisis forces our hand.

The Situation: A 50-Year-Old Pool on Borrowed Time

Our family and children's pool was built over 50 years ago. It has served our community well — but its time has passed. The pool is operating far beyond its expected lifespan, and structural and mechanical assessments confirm what many of us have suspected: this facility could be forced to close at any point, with little to no warning.

We are not dealing with a pool that needs repairs — we are dealing with a pool that, by any reasonable standard, should already have been decommissioned. While estimates suggest it may have one to two years of operation remaining, that is not a guarantee. Every season we delay is a season we risk an unplanned emergency closure that leaves our members — especially our youngest — without a facility entirely.

Why Our Families and Children Depend on This Pool

For many of our member families, the pool is not an amenity — it is a cornerstone of community life. Consider what is at stake:

- Children learn to swim, build confidence, and develop friendships they carry for life.
- Families gather here throughout the summer months, creating memories that define our community.
- Young parents rely on a safe, supervised aquatic environment for their kids.
- Families chose membership here, in part, because of this pool

An emergency closure would not just be inconvenient — it would be a failure to deliver on the fundamental value of membership for our families with children. We have the opportunity to act proactively. We must take it.

The Proposal: A Responsible Path Forward

The Board is proposing a Special Assessment of \$558 per membership, collected over six (6) quarters — just \$93.00 per quarter, or \$31 a month for 18 months. This structured payment plan was designed deliberately to spread the financial impact as broadly and fairly as possible across our membership.

This assessment will fund the full design, permitting, and construction of a new family and children's pool — one built for the next 50 years of our community. A new facility will meet modern safety codes, reduce ongoing maintenance costs, and restore the full experience our members deserve.

The Cost of Inaction

If we do not act now, the alternative is far worse. An unplanned closure means no pool — not next season, not for an unknown number of seasons — while emergency planning and funding scrambles take place. Emergency replacements cost significantly more than planned construction. And in the interim, our families are left without the facility.

Voting YES today means our children swim next summer. Voting NO risks that they do not.

All memberships vote count equally on this assessment. We ask you to consider not only your own family, but the families beside you — the children splashing in the shallow end, the parents watching from the deck, the friendships formed over summers at this pool. This is what we are preserving.

Please vote YES on the Family & Children's Pool Special Assessment. Together, we can ensure our community has a safe, beautiful aquatic facility for generations to come.

Demolition to begin winter of 2026, new construction first of 2027 with opening date late summer 2027, possibly by July.

\$558 per membership or 6 quarterly installments of \$93.00 or \$31.00 Month for 18 months

If approved, the existing pool, concrete, fencing, and surrounding structures would be fully removed, allowing the entire area to be professionally redesigned from the ground up by a commercial aquatic engineering firm. This concept has been developed by a company that specializes in commercial pool construction and includes engineered plans designed for long-term durability, safety, accessibility, and family enjoyment.

The proposed design features a beach-entry pool, ADA accessibility, commercial-grade slide, multiple Vortex interactive water play features, retractable Aqua zip self-retracting rope swing, basketball goals, seating ledges, expanded deck space, new fencing, and modern amenities throughout.

This is not simply a pool replacement, it's an opportunity to create a modern, family-focused aquatic destination that can serve members for decades to come.

New Pool

- Total sq/ft 3,962
- 3,150 sq/ft 3'-5' Deep water
- ADA Ramp with railings
- Zero depth entry with multiple Vortex interactive play features
- Commercial grade waterslide
- Aqua zip, self-retracting rope swing
- 2 Basketball goals
- Seating Ledge
- New concrete deck
- 2 lifeguards

Old Pool- (50 YEARS OLD)

- Total sq/ft 3,120
- 3,120 sq/ft 3'-5' Deep water
- No access for disabled & elderly
- No play features ages 2-12
- No waterslide
- 2 lifeguards

Two companies have submitted bids; there are many options to choose from between the two bids. Both options include a splash area for kids as well as a regular pool area for older kids and adults. Both include the options for a slide, 2 basketball goals, a choice of multiple water features in the kiddie pool area, and other amenities.

The following items are also required with an estimated cost of \$260,000.00. These items are not included in either pool contractor's bid and will need to be completed by Ranch staff or contracted separately as part of the overall pool project:

- Independent shotcrete testing by a third-party testing contractor
- Soil and compaction testing
- Demolition of the existing pool and associated structures
- Fill material and required compaction, including any necessary rock fill
- Electrical service to the pump/ equipment house
- Structure/ building for the filtration and chemical systems, which will also include a lifeguard break room
- Freshwater & Wastewater plumbing
- Fresh water lines to auto fill including backflow preventer, and sewer lines for backwash
- Sump or septic system for pool backwash
- Area/ site lighting (above deck lighting)
- Pool fencing, Pool furniture and furnishings

The total high estimate is \$2,100,964.00; the low estimate is \$1,849,000.00.

Proposed Assessment:

- You will have options to pay monthly, quarterly, or in full.
- \$31.00 per month for 18 months, or \$93.00 every 3 months, or \$558.00 one-time payment

This will fund \$1,925,100.00 based on 3450 members. Our current membership numbers are approx. 3570.

August 27th, 2026

Hi Everyone!

**LEE KROUT
RANCH MANAGER**

Another month is almost over, August has been a hot and dry month. There are several events this weekend. Check out the events page on our website for more information on some of the new events this year.

Labor Day weekend is just around the corner. Holiday rules are in effect for Labor Day weekend. Per the rules no guests may have their own pad starting Monday August 31st members are only allowed 1 pad and no guest campers on pads. Also don't forget if your camper is out a pad on September 4th, 5th, and 6th you must occupy it. We have 200 new members this year, so a little reminder doesn't hurt.

Ballots have been mailed out to those that requested them as well as anyone who did not have a valid email address or phone number on file. Everyone else should already have your electronic ballot in your email or by text. Please make sure you vote.

Thanks
